

# CBL boxes

## The sustainable, safe food box

This re-usable plastic box is available in six different sizes. The CBL box offers an (extremely) long service life, after which it can be fully recycled. That makes the box more sustainable than cardboard boxes.

### 100% recyclable

Made of durable, wear-resistant plastic and 100% recyclable.

### Stackable

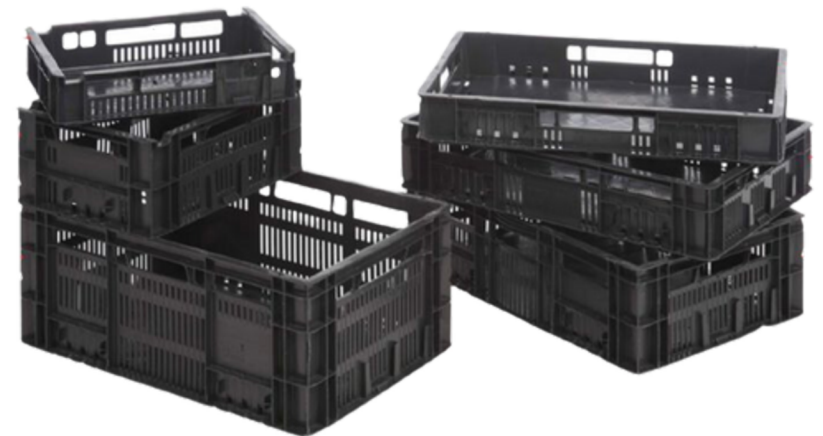

Standard European dimensions for modular packaging.

### Well ventilated

The ventilation openings help keep your products cool and dry.

### Food safety

Made of food-safe virgin HDPE and recycled CBL boxes.
