

Freshbox CBL

The sustainable, food safe crate

Freshbox CBL is a reusable plastic CBL crate, that comes in six sizes. The crate is made of recycled plastic, and can be recycled again at the end of its long life span. Because of this, a CBL crate by HB RTS is more sustainable in use than cardboard boxes.

Easy to wash and dry; smooth surface, no unreachable areas. The many ventilation holes make drying easier and facilitate cooling of the products in the crates.

Made of food safe recycled High Density Polyethylene. At the end of its life span the material can be recycled again.

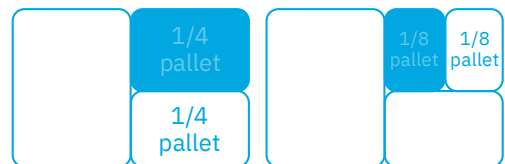

Can be stacked with most plastic crates in the market, as it meets European standard dimensions.

Label holders on all sides and a place for stickers.

Can be easily transported on one of the other reusable transport items by HB RTS or on standard pallets.

Type	Length (external)	Width (external)	Height (external)	Weight	Carrying Capacity
CBL 7	600 mm	400 mm	86,6 mm	1080 g	6 kg / 16 l
CBL 8	400 mm	300 mm	86,6 mm	585 g	4 kg / 7,5 l
CBL 11	600 mm	400 mm	125 mm	1320 g	10 kg / 24 l
CBL 15	400 mm	300 mm	163,8 mm	820 g	5 kg / 15 l
CBL 17	600 mm	400 mm	177,3 mm	1675 g	15 kg / 34,7 l
CBL 23	600 mm	400 mm	240 mm	2000 g	20 kg / 47,6 l
