

HB Dolly Steel

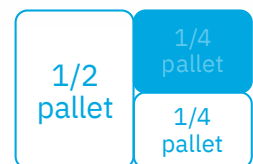

The rolling quarter pallet

The HB Dolly is a rolling quarter pallet with the same internal dimensions as a 1/4 Euro Pallet to match European standard measurements. It's developed specifically for transporting modular packaging. The discreet construction of the HB Dolly also makes it a perfect carrier of in-store displays. Its low profile make it almost unnoticeable, ensuring your products grab the customers eyes.

Its stackable nature provides a safe, sustainable and efficient returns flow.

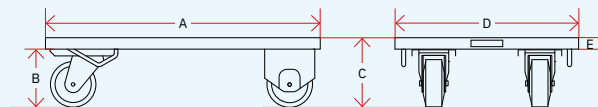

European standard dimensions:
Compatible with all other transport units due to modular basic dimensions.

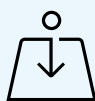

Specifications

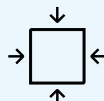

A = 603 mm C = 152,5 mm E = 23 mm
B = 127,5 mm D = 403 mm
